

To our dear patients waiting ...

Please know we are working; we are scheduling; we are seeing patients. We ask your continued patience as we make the schedule appropriate for social distancing. If you had a scheduled cleaning appointment in March, April or May that was moved due to COVID, we are currently phone calling each patient on that list and finding a scheduled appointment time for you. To say that is not easy is an understatement. We promise you will receive a phone call in the next three weeks to discuss your new appointment time. Again, thank you for your patience.

**Karen E. Williamson, DDS**
