

To our dear patients waiting ...

Please know we are working; we are scheduling; we are seeing patients. We ask your continued patience as we make the schedule appropriate for social distancing. If you had a scheduled cleaning appointment in March, April or May that was moved due to COVID, we are currently phone calling each patient on that list and finding a scheduled appointment time for you.

If you have an urgent need, please call our office to address your needs right away: 469-402-0024. We thank you for your continued patience and look forward to seeing you and your families again soon!

Sincerely,

Dr. Karen Williamson
